<https://lukemccrae-97878.firebaseio.com/>

EDUCATION

Pikes Peak Community College

Associate Arts - Foreign Language

Nov 2011 - May 2014

Colorado Springs, CO

Galvanize

Full Stack Web Development Immersive - MEAN Stack

Oct 2016 - April 2017

Denver, CO

EXPERIENCE

Nimbus 9

Front End Developer

Sep 2017 - Apr 2018

Colorado Springs, CO

- Updated the frontend codebase from Angular 1.4 to 1.6, modifying deprecated methods and documentation.
- Created a testing suite using Jasmine.
- Modified lighting system controls according to new design standards.
- Developed UI controls for Sunrise and Sunset lighting timers using AngularJS.
- Utilized Angular Material components to style user interfaces.
- Used Docker in development and staging environments.

Code For San Francisco

Volunteer Developer

Jan 2019 - Present

San Francisco, CA

- Developed a feature to view bus routes in different cities using React.
- Created an info page for a map of cars parked in bike lanes using React.

SKILLS

- Languages: Javascript, HTML / CSS, Java, Python
- Tools: React, node.js, Express, MongoDB, PostgreSQL, Heroku, Firebase, AngularJS, Git, Docker

PROJECTS

Group Timer

React, node.js, Express, MongoDB, Heroku, Firebase, Git

<https://group-timer.firebaseio.com/>

Conquer your todo list with the help of sequential timers.

Simple Todo

React, node.js, Express, MongoDB, Heroku, Firebase, Git

<https://simple-todo-d5482.firebaseio.com/>

Stay organized with this simple todo list.

Beer Crawl

JavaScript, HTML5, CSS3, Bootstrap 3, Firebase, Google Maps API

<https://mapmybeercrawl.firebaseio.com/>

An app to help you explore your urban environment. After getting your location, a beer crawl is dynamically generated along with a link to the directions in your maps application.
